# Framework for 21st Century Learning

The Partnership for 21st Century Skills has developed a vision for 21st Century student success in the new global economy.

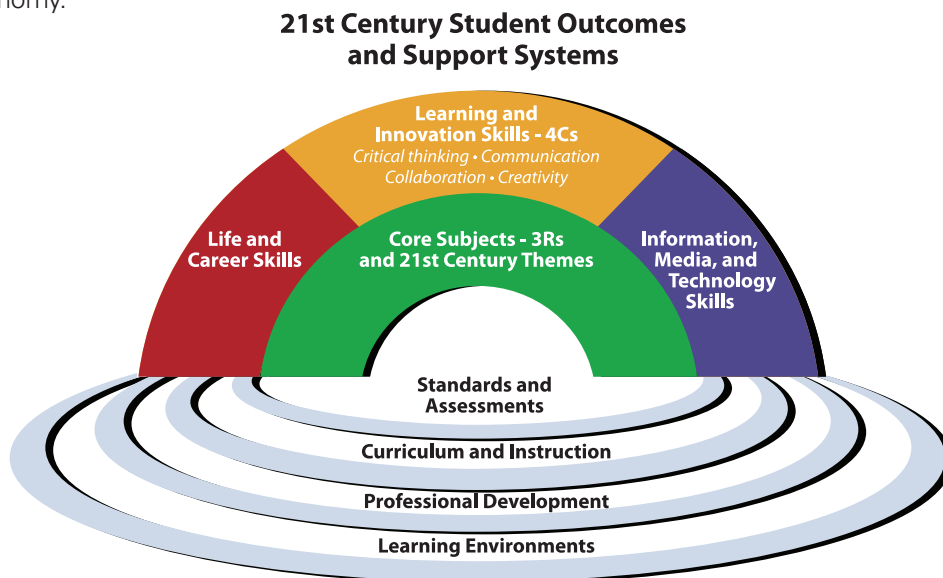

Figure 1. 21st Century Student Outcomes and Support Systems

- Global Awareness
- Financial, Economic, Business and Entrepreneurial Literacy
- Civic Literacy
- Health Literacy
- Environmental Literacy

## Learning and Innovation Skills

# Rubric for Evaluating North Carolina Career Development Coordinators

---

The following rubric was developed to align with and exemplify the North Carolina Professional Career Development Coordinator Standards approved by the North Carolina State Board of Education. The rubric should be used in conjunction with the standards descriptions. The rubric will be used by the principal during career development coordinator observations to check descriptors that describe levels of performance and by the career development coordinator during self-assessment. After all observations have been completed, the number of checks per descriptor will guide the principal to determine the performance rating for each element. (See *Completing the Summary Rating Form*.) Together, these materials form the core of the North Carolina Career Development Coordinator Evaluation Process.

After all observations have been completed, career development coordinator performance will be noted as follows:

- **Developing:** Career development coordinator demonstrated adequate growth toward achieving standard(s) during the period of performance, but did not demonstrate competence on standard(s) of performance.
- **Proficient:** Career development coordinator demonstrated basic competence on standard(s) of performance.
- **Accomplished:** Career development coordinator exceeded basic competence on standard(s) of performance most of the time.
- **Distinguished:** Career development coordinator consistently and significantly exceeded basic competence on standard(s) of performance.
- **Not Demonstrated:** Career development coordinator did not demonstrate competence on or adequate growth toward achieving standard(s) of performance. (Note: If the “Not Demonstrated” rating is used, the Principal/Evaluator must comment about why it was used.)

For the summative ratings, these levels are cumulative across the rows of the rubric. The career development coordinator who is rated Developing for an element may be a beginning career development coordinator exemplifying the skills expected of a career development coordinator who is new to the profession or an experienced career development coordinator who is working in a new content area or grade level or who needs a new skill in order to meet the standard. A career development coordinator who is rated Proficient for an element must exhibit the skills and knowledge described under the Developing header as well as those under Proficient. Likewise, a career development coordinator who is rated Distinguished for an element exhibits all of the skills and knowledge described for that element across the row.

The Not Demonstrated level should be used when the career development coordinator performs below expectations during an observation and is not making adequate growth toward becoming proficient on the element. This rating is used on the Summary Rating Form when the principal has not been able to check any of the descriptors for the element being rated on at least one observation during the evaluation cycle. When a career development coordinator indicates Not Demonstrated during an observation or is rated Not Demonstrated on the Summary Rating Form for an element, then a comment must be made as to why.

## Directions for Completing the Rubric

---

### **Completing the Rubric for Self-Assessment**

The career development coordinator will complete a self-assessment based on the Rubric for Evaluating North Carolina Career Development Coordinators in preparation for the Pre-Observation Conference. The self-assessment is a personal reflection about one's professional practice to identify strengths and areas for improvement conducted without input from others. Purposes of the self-assessment are to clarify performance expectations, guide discussions about goal-setting and professional development and program needs, and to provide input to the final, end-of-year ratings. The career development coordinator should complete the rubric by checking descriptors that characterize strengths and consider descriptors that have not been checked as areas for improvement. The career development coordinator shall measure his or her own performance at the beginning of the year and reflect on his or her performance throughout the year.

### **Completing the Rubric for Observations**

The principal or evaluator will complete the Rubric for Evaluating North Carolina Career Development Coordinators during career development coordinator observations. The evaluator checks descriptors that are observed during the session/lesson and considers evidence of additional performance responsibilities demonstrated by the career development coordinator. If the observer is not able to mark any of the descriptors for an element, then the Not Demonstrated column is used. In such case, the observer must write a comment about what was observed and suggestions for improving performance. During each post-observation conference, the principal and career development coordinator discuss and document on the rubric the strengths and weaknesses of the career development coordinator's performance during the observed session/lesson.

# End-of-Year Final Summary Evaluation

---

## Compiling Observation Data to Determine Summary Ratings

After all observations have been completed, the number of checks per descriptor should be added together for scoring the elements of each standard. The principal must determine whether or not each descriptor was observed at least once, across all observations over the course of the year.

## Completing the Summary Rating Form

The rating for an element is the lowest rubric-column category for which all descriptors were observed at least once during the evaluation cycle. After the rating for each element is established, an overall rating for each standard may be determined.

Overall ratings of standards should not be determined until the end of the year. During the Summary Evaluation Conference, the principal and career development coordinator shall discuss the self-assessment, the most recent Professional Development Plan, the components of the North Carolina Career Development Coordinator Evaluation Process completed during the year, observations, artifacts submitted or collected during the evaluation process and other evidence of the career development coordinator's performance on the rubric. The Summary/End-of-Year Rating Form is to be jointly reviewed by the career development coordinator and evaluator during the Summary Evaluation Conference.

When a career development coordinator is rated as Developing or Not Demonstrated, the principal or evaluator should strongly encourage the career development coordinator to develop a goal to address the area(s) where proficiency has not been reached.

Violation of the standards shall subject an educator to investigation and possible disciplinary action by the State Board of Education or local school district.

These rules shall be binding on every person licensed by the SBE, hereinafter referred to as “educator” or “professional educator,” and the possible consequences of any willful breach shall include license suspension or revocation. 4. Proper remunerative conduct. The educator shall not solicit current students or parents of students to purchase equipment, supplies, or services from the educator in a private remunerative capacity. This Rule shall not restrict performance of any overtime or supplemental services at the request of the LEA; nor shall it apply to or restrict the acceptance of gifts or tokens of minimal value offered and accepted openly from students, parents, or other persons in recognition or appreciation of service.
5. Conduct with students. The educator shall treat all students with respect. The educator shall not commit any abusive act or sexual exploitation with, to, or in the presence of a student, whether or not that student is or has been under the care or supervision of that educator, as defined below:

  - b. Be under the influence of, possess, use, or consume an alcoholic beverage or a controlled substance on school premises or at a school-sponsored activity involving students; or
  - c. Furnish alcohol or a controlled substance to any student except as indicated in the professional duties of administering legally prescribed medications.
  - d. Compliance with criminal laws. The educator shall not commit any act referred to in G.S. 115C-332 and any felony under the laws of the United States or of any state.
10. Public funds and property. The educator shall not misuse public funds or property, funds of a school-related organization, or colleague’s funds. The educator shall not directly or indirectly use or threaten to use any official authority or influence in any manner that tends to discourage, restrain, interfere with, coerce, or discriminate against any subordinate or any licensee who in good faith reports, discloses, divulges, or otherwise brings to the attention of an LEA, the SBE, or any other public agency authorized to take remedial action, any facts or information relative to actual or suspected violation of any law regulating the duties of persons serving in the public school system including but not limited to these Rules.
