

Title II

The Title II, Part A program is designed, among other things, to provide students from low-income families and minority students with greater access to effective educators. It is intended to enhance the quality of instruction in classrooms across the district. The purpose of the program is to develop, implement, and evaluate comprehensive programs and activities to address the learning needs of all students, including children with disabilities, English learners, and gifted and talented students through effective instruction. It targets new teachers and assists in keeping all teachers up-to-date in their licensed areas. Opportunities for staff development for teachers and administrators, mentor support for new teachers, and educational reimbursement for advanced degrees and license areas are all part of the Title II grant funding.

As reauthorized under every Students Succeeds Act (ESSA), Title II, Part A grants may be used for innovative and evidence-based activities to more effectively attract, select, place, support, and retain excellent educators in every classroom in every school. This is an annually awarded grant.
